AutoBrake Download [Latest]

The AutoBrake app allows you to rip, convert, and save your DVDs as common file formats. Your disc-ripping needs will be satisfied through the web interface, through an icon on the desktop, or from the system tray. The application can work in two modes, either in a stand-alone way (with options for custom configuration), or via the HandBrake tool, which works as a front-end for it. It supports DVD-9 to DVD-5 formats and on-the-fly conversion while simultaneously scrubbing, trimming, and merging. AutoBrake supports batch conversions and includes a DVD to iPod/iPhone/Android manager, with the ability to rip DVDs to ZIP/RAR/7z/ISO/BIN/VOB/OGG/DivX/MP4/MOV/AVI/MKV/F4V/TS/TXT/XVID. A DVD menu builder is included as well, which allows you to design your own DVD menus. AutoBrake is free and open source. It's developed by a team of software developers for people who want to rip their DVDs, and do so in a lot of different ways. Features Available in 3 languages. Supports multi-pass video conversion.
