Both contain the same columns: ID, Date, Submitter, Comments and Status (Approved, Rejected or Other). I would like to do some analysis to identify and count the number of projects that have been approved and rejected. However, the problem is that I have no idea how to identify projects that are "in progress". I need to be able to identify these from the comments column. I don't want to remove the comments column, because in my situation, I need to keep the comments. I only want to be able to identify those projects that have a record of

Approved, Rejected or Other in the comments column. A: If you want just count those records with comments that contains "Approved", "Rejected" or "Other" then you can simply use the FILTER function:
=COUNTA(FILTER(Project!A:A,Project!A:A"Approved",Project!A:A"Rejected",Project!A: ca3bf1094

Police Monday morning confirmed a teen fatally shot a pregnant woman who had just gotten out of her car in the driveway of her apartment complex, in Antioch. It was not known whether the young man was related to the woman, who was 21 weeks pregnant and was listed in critical condition. Sheriff's detectives were investigating the death of an Antioch woman who was fatally shot in the driveway of her apartment complex as she had just exited her car Monday morning. Antioch police say a 17-year-old boy has been arrested in connection with the shooting. (Antioch Police Department) According to Antioch police, the woman was sitting in her car in the 600 block of Orchard Lane about 8:30 a.m. when the shooting occurred. Advertisement "At that time, the victim was shot," said Lt. Mike Berry. Detectives found the woman in her car lying face down in the driveway. "She was taken to (Joan) Ross Medical Center, where she was pronounced deceased," said Lt. Berry. "The shooting appears to have been a deliberate act." The name of the woman is not being released because she has not yet been publicly identified by the Contra Costa Coroner's Office, Berry said. Antioch police have not released the name of the teen arrested in the case. He was booked into juvenile hall and is being held without bail.

Q: Stripe API - charge card I'm using Stripe API and I want to charge credit card. I need a receipt of charges, and I want to create a receipt from my Stripe account. I tried to create it, but I can't get my receipt from my account. I must charge the card with name, and then, I want to get back my receipt to show it. How can
