It was first released in 2007 and has been updated recently. The program has good features and can be useful if you have a big workbook. It will do its best to help you sort out your information if you tell it where it is, but it does not recognize the new location. So when you change the location, it will try to find your location in old locations, and if you are not seeing the new location, it might be time to change the old location for a new one. The program has a lot of features, but this video review focuses on the most important ones.
