That's why I'm looking to build an API using VueJS and Laravel. This is my router.php code: Route::get('/', function() { return View::make('index'); }->name('main-home'); Route::resource('/projects', 'ProjectsController'); In my Laravel Project I have a route like this: Route::get('projects', array('as' => 'projects', 'uses' => 'ProjectsController@index')); So in this case, how can I get the projects from the database? I know there are several ways for an API like this but what are the benefits and drawbacks for each of them? I mean, the main thing I want to do is to get the entire projects from the database in JSON format without the need to send any header to the client. So I'm looking for the simplest solution. A: You can use VueResource in this case because Vue Resource can be used to built REST api which is described in this Link. If you want to use the Laravel Method Resource then refer the Link Alteration of the hypothalamic peptides in the interrenal tumor bearing rat. The content of vasopressin (VP) and oxytocin (OT) in the rat hypothalamus and pituitary were studied by radioimmunoassay method in tumor bearing rats and in untreated control animals. In the hypothalamus, the contents of VP and OT were found to be significantly increased in tumor-bearing rats as compared with control rats. It is possible that the observed increase in the content of these peptides may be due to the lesion in the hypothalamo-hypophysial tract.Schistosomiasis: what d0c515b9f4

I've read that the first isomorphism theorem for vector spaces is very important but I can't find a good book to learn linear algebra (not necessarily w/ a proof, e.g. the book that teaches or proves the theorem). The book I'm currently reading (for reference, I'll note a few relevant topics and definitions) Linear Algebra and its Applications by Hoffman and Kunze Chapter 1: Basic concepts Definition 3: An algebra is
