Roblox is an online game platform and game creation system developed by Roblox Corporation that allows users to program games and play games created by other users. Created by David Baszucki and Erik Cassel in 2004 and released in 2006, the platform hosts user-created games of multiple genres coded in the programming language Lua. For most of Roblox's history, it was relatively small, both as a platform and a company. Roblox began to grow rapidly in the second half of the 2010s, and this growth has been accelerated by the COVID-19 pandemic. Roblox is free to play, with in-game purchases available through a virtual currency called Robux. As of August 2020, Roblox had over 164 million monthly active users, including more than half of all American children under 16. Although Roblox has received generally positive reviews from critics, it has faced criticism for its moderation, microtransactions, and exploitative practices directed toward children. As of July 2015, Roblox contains over 86 million accounts with over 11 million of those accounts being monthly active users. Roblox was ranked the 5th top grossing mobile game on IOS of 2015. On February 17th, 2016, Roblox was the top grossing social app for the month of February. On June 11th, 2016, Roblox was the top grossing paid app on iOS. Roblox as of July 2019, is the 2nd top grossing paid app on IOS and the 15th top grossing paid app on Android. Roblox has annual revenues of over \$1 billion, with the majority of Robux earnings coming from the in-game monetization. Roblox is known to have attracted a higher-than-average number of teens, it's been described as being a "social game for teens." Roblox has had over 1.2 million regular and monthly active users of the mobile app in just over 24 hours. The game has been compared to the popular video game Minecraft, with its creative nature being similar to that game and also its visuals. On February 26, 2017, a version of Roblox was released for Google's Stadia streaming platform. A Google Stadia update revealed Roblox is one of the games released on the platform as a beta test. History Roblox was first released on July 17, 2006 with a team size of two. From 2006 to 2008, the company
