Ive tried IconPackager but it says it's for commercial use, it's very misleading.Q: Refresh parent page using ajax This might be a very easy problem, but I just can't figure it out. I'm looking for a way to refresh a parent page using ajax, my problem is that I have a ajax form which submits data to the parent page, and I want to refresh the parent page using jQuery you can do the following to refresh your parent page, you must give the id of the element which needs to be refreshed and then make the request as below: \$(document).ready(function() { \$("#refresh_me").empty(); \$.post("page.php", function(data) { \$("#refresh_me").replaceWith(data); }); }); }); So that when the #refresh_me element is clicked, a POST request will be executed and the response will be replaced in the DOM. The other day I discovered that there's such a thing as "Social Navigation" for people 3a67dffeec

If you are looking for simple and intuitive icon icons, then you have found them. Having a set of quality, free icons is one of the best things you can do to extend the functionality of your work. Not only do they help to clarify the purpose of a website or app, but they can also be used to advertise products, explain processes, and generally make the interface much more attractive. Sometimes you also have to turn to stock icons to get the layout of your application on screen. The icons are small, bright and coherent and come in a number of image formats - standard PNG, Windows Icon (.ico) and BMP. When you see them on your website or App, you'll probably assume that they are free. This is far from true. A number of high-quality vector icons can cost thousands of dollars, and the same is true for the stock photos. As a result, there is a growing number of free icon icons available online. The quality of these icons is high, or at least much higher than ordinary stock icons. And we provide these in a number of common sizes, too. So you can get the right size for the job. This is a collection of simple, clean, functional and quality icons, easily usable across desktop and mobile, web and apps. It's ideal for developers, designers, and agencies working with icon-based interfaces. So, if you are looking for a simple, clean and elegant set of icons, which are also easy to work with, you've come to the right place.
