Created by tri-Ace, one of the creators of Ace Combat. The Elden Ring was originally created for the purpose of developing Triple Ace's brand new RPG titled "Elden Ring". The game is designed around the idea of the "Mystery of Lore" as stated by the original game's scenario. Elden Ring is a fantasy action RPG that puts you in the role of a hero who begins their life in darkness. I said above that it was an action RPG, however unlike typical action RPGs, there is no button-mashing in Elden Ring. In fact, the action is made even more diverse thanks to a robust dodge and block system. The fight is a finely balanced action where you have to use your own skill to win the battle! Furthermore, to make the action even more exciting, there are several Action Elements to be discovered. Some of these are, such as the Ultimate Rush and the Ultimate Shock. You will also encounter the element of an epic fantasy story as you progress through the game. In addition to the world's customization, you will also gain the freedom to create and customize your own character. Welcome to the new fantasy adventure, Rise, Tarnished.
