Roselt Web Browser (RWB) is a multi-purpose browser software that makes web browsing convenient and entertaining. RWB has an efficient web browser that uses less system resources and loads web pages faster than any other product in its category. RWB is suitable for any type of internet tasks. RWB includes a built in, easy to use file manager, so you can browse your computer and find everything you need. No other web browser compares to RWB. . Microsoft Internet Explorer is arguably the most famous and most highly used web browser. There are a lot of reasons for that. MSIE offers a large selection of features while being reliable, stable and easy to use. In this case we will give you a few tips that will make your internet surfing much better and easier. Watch for flash content that you might not be able to see. MSIE has built in ad blocking that will prevent advertisements from being displayed. Open sites directly from the web browser address bar. MSIE doesn't allow you to open a site directly from the address bar. In fact, this comes out to be very helpful because when you just click the address bar instead of the address, you can be at a shorter page, but with many additional items and a very good experience. Check out the page you're on and review the query string. For example, if you're at Google, you can click on the address bar and then add an equals sign and the query string to get to the example page you're looking at. This is extremely useful when you are planning to be notified of particular items, for example, you're reading a certain word, you can just add the word you want to know more about in the search bar and click the URL to learn everything about it. Use shortcuts. The internet offers an abundance of information regarding the internet, from internet search tools to common search phrases like MSN, Yahoo or Bing. Use the search tools to find things much faster. You need to be able to save your web session. This is where the Start screen comes in. MSIE doesn't let you save web sessions.
