TVSAssistant

The TVSAssistant is a utility program. The TVSAssistant system is a compact utility to adjust the Panasonic KX-TVS50 Voice Processing System parameters with ease and without any technical knowledge. From the TVSAssistant you can change the following parameters of Panasonic KX-TVS50: · Operator Call Handling; · Dialing Mode; · Set all Telephone/Pager Notification; · Custom Menu; · Audio Custom Menu; · Custom Service Menu; · Custom Calendar; · Custom Station/Queue; · Custom Email; · Custom Message; · TVSAssistant will display the parameters in the following way: · A list with groups of parameters, which are shown as a table. · A list with each parameter in the group is displayed as a table. This list includes the table parameters in the program. · A table with parameters for each group. · You can print any or all tables. · You can navigate through the parameters of any of the groups by double clicking the row. · You can activate the Wizard mode by selecting a group of parameters. In this mode, the TVSAssistant will automatically determine the parameters and the table structure, which corresponds to the selected group of parameters. · You can navigate through the parameters of the group manually by using the arrow buttons. · You can modify the values of the parameters by entering the values directly in the table cells. The entries can be made from a list of available values or by using the numerical keys. You can also specify the required end value. · You can print the table to the printer by pressing the PRINT button. · You can activate the Wizard mode by selecting the PRINT button. This will also activate the default sequence of actions for the selected group of parameters. · You can print the complete table using the PRINT button. In this mode all parameters and their values will be printed. · You can add up to 4 custom groups of parameters. You can add parameters to any of these groups using the Add button and you can also remove any of these groups by selecting the Remove button. · You can print the main table with the values of the default groups or you can print the tables of each custom group by pressing the PRINT button. · You can launch the TVSAssistant system as the main or as a secondary application. · You can add the program to the START menu. · You can
