AutoCAD is one of the few CAD software applications to be used on Microsoft Windows. AutoCAD LT is the entry-level version of AutoCAD and supports Windows Vista. AutoCAD LT is available for Windows 10, macOS 10.12+, and Linux distributions based on the recent versions of the Linux kernel. AutoCAD LT supports three languages (English, Spanish, and Portuguese) and is available in a free "lite" version, which has limited functionality, and a "standard" version, which has full functionality. AutoCAD LT Standard and AutoCAD Standard are also available on mobile platforms, for example, Android, iOS, and Windows Mobile. In June 2017, AutoCAD 2019 was released, bringing with it a powerful new feature set, including native support for non-standard file formats, 64-bit file support, enhanced linked layer support, and new collaboration tools. With the release of AutoCAD LT, AutoCAD now supports the design of non-standard file formats and linked layer files. AutoCAD LT Standard and AutoCAD LT Standard for mobile now support 64-bit file formats. The Microsoft Windows and Macintosh versions of AutoCAD LT Standard and AutoCAD LT Standard for mobile are also available for \$14.99 and \$29.99 respectively. The Autodesk-Certified subscription is available for both the professional and basic packages. Autodesk-certified applications are tested to ensure that they meet Autodesk's quality standards and have received Autodesk's seal of approval. Autodesk-certified Autodesk Design Suite is subject to a minimum 30-day money-back guarantee for 30 days after purchase, during which Autodesk will refund any unearned portion

Once again I was reminded that the atheist movement is full of people whose faith consists in living better and being more human. Many of us are lucky to have the god given gift of faith. It doesn't mean you don't have to earn other virtues. Comments Interestingly, I think that if you go back to the roots of the Orthodox Church, even in a modern, world-oriented form, the sacraments are really at the heart of what they are offering. However, those that I know who are devout and passionate about them, also see them as "prophylactic," in a sense. Fatal attacks in Iran on two Sunni Muslim women are new sign of 'new discrimination' by Shiite-led authorities, according to opposition activists This article is more than 5 years old This article is more than 5 years old Iran has expressed its "strongest condemnation" after two women were murdered by men in separate, similar attacks. The first of the attacks happened in the city of Gorgan on Wednesday evening when two armed men kidnapped an 18-year-old woman from a shopping street and took her to a nearby desert area where they murdered her. In the second attack, on Thursday afternoon, a man and a woman were kidnapped in the same area and their bodies were found on Friday. On Sunday evening, two men abducted the woman, Hamida Habibi, 25, from a busy downtown street, where she worked as a taxi driver, according to family. "They have given a detailed account of what happened," Mohammad Alipour, a lawyer for the family, told Reuters. "It is not clear whether the second murder was linked to the first one or not," Alipour added. The attacks have triggered nationwide outrage. "This is a new discrimination, a new wave of discrimination against women, and unfortunately it is the trend of the government," said Nasrin Sotoudeh, a prominent human rights lawyer who has represented women's rights activists and prisoners of conscience in Iran. "This is the most dangerous time, not just for women, but for all Iranians who defend their rights, and are writing and speaking out about injustice," Sotoudeh said.
